Centrifugal Water Wheel,
— FOR —
IGHT SHAFTS,"
re adapted for driving all kinds of
inery in Manufacturing establish-
and are made of different sizes so as
mount of power required and from the
se Wheels have acquired by the sub-
ion of several hundred of them already
e, we feel confident in recommending
ining more advantages than any other
rpendicular Shafts now used
e of the merits of this Wheel we
o the following extracts from their re-
ments made with the same by ITHA-
ARD Esq *Civil Engineer*—Lowell
well known as one of the most Scien-
renced practical Engineers in this

el is formed with curved floats the
ending upon the size and vent of the
extending so far around the Wheel,
water arrives at the jet its pressure
ended that it falls very nearly inert
eel The Wheel is inclosed in a cyl-
ten curb or flume, in which the water
ull head, the column being sustained
ary plate underneath the Wheel, so
downward pressure upon the Wheel,
perfectly free in the column of water,
rangement all the friction on the step
or the Wheel is avoided, and so much of
ved which in the ordinary mode of op-
olly lost
el is adapted to low as well as high
er and will run as well in back water
oviding the head rises in a freshet as
ck water But a Wheel with the jets
ow for a high head will not answer for
d rise versa for as the head increases,
the jets should be proportionably de-
hat the water may not issue to waste
its best effect to the Wheel
f power, the trials show conclusively
eel is superior to the best constructed
ls and it has the advantage of working
ect in situations where the Breast
be worthless is less liable to need re-
accessible when they are needed.
ss in the outlay, is much more durable,
y much less room in a mill or shop —
structure, durability of parts conven-
cation and excellence of power are
nts of recommendation for this Wheel.

Important Letter.

Medical Office, 2 Bowdoin Square
Boston, Feb 1, 1848

Dear Sir, I shall be much obliged to you a few lines relative to your "Brown's Elixir" which, for the benefit of the afflicted, if you think worthy of you are at liberty to make public About a year and a half ago my mother became sick, so that in a short time my physician gave her up to die for her life. Her symptoms were, pain, hard cough, pain in the side and loss of night sweats, &c &c other pulmonary signs of pulmonary consumption Well considering that her physicians, who gave her little or no relief and finally pronounced her case incurable consumption She continued to become weaker, and the symptoms more confirmed

About this time my brother spoke of a friend, we concluded to try Brown's Elixir. Having procured a bottle from your agent S R Hyam of Exmouth she commenced taking it At first it seemed only to mitigate the severity of the symptoms, but in a short time her health became evidently to improve It relieved her cough, relieved her night sweats and gradually removed the fear of the whole system — After having continued to use most of the time for nearly a year, she calls herself cured She is now able to go about the house, and superintend affairs as usual Under God we believe that to Brown's Elixir, alone, she owes the preservation of her life and the restoration of former health and energy We have also used it in our family in other cases for which it is recommended in the pamphlets with universal success Yours truly,

(Signed) JOHN P. NORDSTROM

The above is only one of the thousand similar letters which we are constantly receiving, from all parts of the country almost daily.

BROWN'S ELIXIR is unquestionably the best article known for the cure of *COUGHS, COLDS and CONSUMPTION*. It is more certain to give relief in all cases of *ASTHMA*—often a perfect charm—than any thing hitherto offered to the public.

It is one of *WHOOPING COUGH* it needs only to be used to give it preference over all other remedies It immediately breaks up the cough and renders more play being otherwise a scourge and terror To the *CROUP* it is a sovereign remedy With confidence Dr Brown has never failed and we believe never will when used according to direction

Pamphlets giving a full description to be had of agents in almost every town and village in the country, and of the following who are prepared to sell at wholesale or retail

DR. CUMMINGS'S
Compound Extract of Sarsaparilla and Dock.

THIS article above named are the principal ingredient of the medicine With these ingredients, and others highly valuable, designed to purify the blood, remove scrofula and consequently many diseases originating therefrom

The Dock (rather a species of it) now ranks as a medicinal plant second to no one If the vegetable kingdom With the aid of other agents the physician whom the proprietor has chosen to the preparation of the compound has been successful in overcoming the difficulty of preparing the extract of the root for any considerable length of time

For many years the proprietor has resided in an eastern clime where the efficacy of the principal substances of the compound, and especially satisfied that they possess all the properties which have been ascribed to them Hence he conceived the idea of uniting them, which has resulted in the production of the compound In this the ingredients are found to act in harmony and to possess the equality in which they separately possess

A larger portion of Sarsaparilla is usable than has generally been supposed The extra quantity is precipitated and least liable to decomposition, is prevented by uniting the root to the actions of the menstrua usually employed in extracting its virtues for a long time, without the many other ingredients Excipient A menstrua permitted to be used in the compound that has not been obtained by this process and that has been less than a year in preparation.

The Compound is recommended for Scrofula Erysipelas Ulcerous affections Eruptions and Cutaneous diseases Also for the numerous maladies arising from sedentary employments necessitating a life of harassing and fatiguing nature Intemperance in dissipation, exposure to extremes of heat and cold, overtaxing the physical powers and other causes of the constitution among which are Nausea Piles Affections of the Liver Bilious Complaints and Dyspepsia or Indigestion

Invalids in warm climates with which the proprietor become familiar in his practice in Manilla, some years since, the compound will prove particularly efficacious both as a remedy and as a preventative

This medicine has been for some time in use in this city where the proprietor has passed the last year of his residence Its success has been extensive and signally beneficial to him while in practice, and it is believed to be in favor with the medical brethren generally wherever it is known

Prepared only by Dr Stephen Cummings and for sale wholesale and retail by Joshua Burgin & Co No 183 Middle street and Edward Mason No 83 Middle street—only agents for Portland

ALL-HEALING
Ointment,

FOR THE CURE OF
Colds, coughs of consumptions, for scrofula, scurvy, and all cutaneous eruptions for bruises, burns, ulcers, sores of all kinds and general or local debility

This celebrated Ointment has a most striking effect upon the blood, cleansing it from all impurities upon the surface, and which, by allaying the pain of the nerves at those sore seats upon the lymphatic ganglia or glands, promoting the free and healthy secretion of the lymphatic fluid, and thus removes the swelling of the glands about the neck, the groins, the axilla or under the arm and other parts of the body

This All Healing Ointment is equally efficacious in promoting the secretion of urine, and by restoring the organs to a healthy action of the urinary organs, thus preserving them in a sound and healthy condition

For rheumatism and pains in the joints, or any other part of the body, and whether on the surface or internal organs.

We speak the things we know of the astonishing efficacy of this justly celebrated invaluable and worthily named "ALL HEALING OINTMENT" The innumerable pains that have been relieved, the long hopeless sufferers relieved and cured, and the more than two thousand hearts which have been comforted and cheered by its balmy virtues and efficacy, teaching to the faith of all, and more than all, herein inserted.

SEALED PROPOSALS

WILL be received at the office of S D Hamilton in Patten until the 5th day of June next, for the purchase of the right of section 16 in said township of land granted to the Penobscot Boom Company by a Resolve of the Legislature of Maine

By the terms of said Resolve the grant is to be void in case the great trade on the Penobscot River shall have erected a suitable building connected with said school and procured corporate property to the amount of one thousand dollars, exclusive of the land Payment to be made within the Trustees duties

Payment to be made within the Trustees duties shall have complied with the conditions of the Resolve, one thousand dollars in cash and the balance in four equal annual payments, with interest annually, secured by mortgage on the land and additional security if required No timber to be cut thereon before all the payments shall have been made with a written permit from the Trustees provided for the payment of stumpage on the lands so sold The penal sum of five hundred dollars will be required to be paid over to the Trustees of the Penobscot Boom Corporation on the bid

S D HAMILTON, Chairman of the Trustees of the Penobscot Boom Corporation
Patten, April 18, 1848 apr19

Permanent Cure of Dyspepsia and habitual Costiveness

To Dr Ralph

DEAR SIR—I have, myself, almost occasion to your inestimable Pills I have used them say six years as occasion the needs and I have reason to suppose they have wrought a thorough and permanent change in respect to the functions of the stomach From habitual costiveness, and the vomiting of meat and almost every thing I am completely relieved The multitudinous symptoms of Dyspepsia, with which I was once too well acquainted have also entirely passed away, that I hardly know which they were Any use you can make of this or a more full development of my case, is at your service

Except in an obstetric case your book F only Physician and Pills have been the only physician and medicine for six years

There are many of my friends around, and more and more who call for your Pills as a family medicine, and for chronic cases Yours truly,

Horatio Wells

WEDNESDAY, MAY 24, 1848.

ARRIVL OF THE

Steamship Caledonia.

Seven Days later from Europe.

The Royal Steamship Caledonia, Captain Leitch, arrived at her wharf, East Boston, Sunday morning, at 10½ o'clock.

We make our selections chiefly from the Boston Times, from Wilmer & Smith's Times.

Our Continental news continues to be undiminished importance and interest. The postscript of our last number contained the intelligence of a very decisive battle between the Danes and the Prussians, and the capture of Schleswig and Flensburg. The Danes have been completely overpowered by the superior forces brought against them, and fled first to Great Wenswin, and afterwards still drew further into the small Asen, where they are making preparations for their defence. The astounding intelligence reached us early in the week that Baron Von Ochsolin, chamberlain of the King of Denmark, who had gone to the Petersburgh to ask assistance from the Emperor, had met with a peremptory refusal. The Emperor it was said, declared that he would not interfere at all.

More authentic and far more probable news however arrived from St Petersburgh, stating that a treaty offensive and defensive between Russia, Sweden, and Denmark is arranged, and will be positively ratified in a few days. An envoy of German troops into Schleswig, in which case Denmark will be supported by the whole force of the other two powers.

By the last accounts great alarm prevailed amongst the Baltic merchants; the Prussians had reached Hadersleben by a road of Appenrode, and were making preparations to invest the island of Alsen. The blockade of the coast and the seas by the Danes continued to be maintained.

The German Continent Assembly will meet at Frankfort on the 18th May, and the great question of Germany early will then be taken into formal consideration. Austria has declared that she cannot accept before that, an obligatory upon her, the resolutions which may be decided upon by the forthcoming Parliament; and we believe this feeling is nationalin Austria Proper. In Poland the most frightful excesses continue to occur; bloody engagements take place perpetually between the landwehr and the military, and attacks on the lives and property of the Jews and Germans are the order of the day. Prince Czartoryski has addressed a letter to Count Arnim, at Berlin, full of bitter disappointment at the idolatrous of all the popes held out by the Prussian Government of the restoration of Poland.

In Gallicia Moldavia, and Wallachia, the people are in a frightful state of insurrection. At Hadeberg the excities practised against the Jews are truly shocking. 300 families have quitted the town by order of the magistrates, as the only means of appeasing the rioters. In Baden the Republicans have attained the height of their defeat, and Hecker crossed the Rhine at the head of 1000 French and German troops. These encounters took place with the Wurtemberg troops, the last at Schaffhausen. These marauders have now fled into Alsace, and the Swiss cantons, having been dispersed and disarmed in virtue of the late decree of the Federal Government. The chiefs, Hecker, Doll, Heinzen, and Herwegh at Strasbourg. In Holstein the people are tranquil. Hanover and Prussia are absorbed in the military operations against Denmark, in which at present, by land, they are completely successful, although the capture at sea by the Danes must occasion very great loss to the Prussian commerce in the Baltic.

The news from the seat of war in Lombardy is not of a decisive character, but is by no means favorable to the Italian cause. The army under Charles Albert continues comparatively inactive; their position is now on the left bank of the Mincio, at Vallegio; but the military movements are confined to fruitless reconnaissances under the very walls of Verona and Mantua, the Austrians keeping close within the fortresses, Peschiera holds out. The movements of the army under Count Nugent have, however been more important. After a severe resistance by the inhabitants of Udine, the capital of the Friuli, the Austrians entered the town by capitulation on the 23d ultimo. Reprisals are made that the people did not offer greater resistance, and the Bishop of Udine and a Colonel Rossi are accused of treachery, but the fact of the Austrians having repossessed themselves of Udine is undoubted.

Five millions of francs have been sent to the army of the Alps to enable it to enter Savoy, and either France must support the cause of Charles Albert, who, at this moment, is identified with the Republicans of Italy or the whole scheme of the regeneration of Italy must be abandoned.

Abdel Kader has arrived at Pait, with his suite, consisting of 89 persons, including three wives, three concubines, and full authority sons and daughters, legitimate and illegitimate.

In Spain no movement has taken place, except at Valencia, which was promptly suppressed.

Mehemet Ali is at the point of death, with no hopes of recovery.

COMMERCIAL.—There has been more activity in the several departments of trade and commerce during the past week. The returns of the elections in France and the general tenor of our advices from all other parts of the European continent, lead to the agreeable hope, that the prolonged ferment which has distracted the several kingdoms and states therein, will now quietly settle down.

The accounts from the manufacturing districts are still improving. More business is doing in manufactured goods.

The young crops are shooting forth with the most promising appearance, and every thing betokens a rich, seasonable and bountiful harvest. These circumstances have had a telling effect on the corn markets throughout the three kingdoms.

The market for Corn has been inactive since our last report. The flight advance obtained at the close of last week has been lost, and the demand is rather sluggish.

There is no appearance as yet of the dreaded "potato rot."

In the Money Market capital has been abundant but a disinclination exists to do business, except for first class paper of very short date, the rate for which is now 3½ per cent.

The commercial intelligence brought by the Iona mail, with dates from Calcutta to the 23d, Madras, the 24th March, and from Bombay to the 1st of April, is of more than usual importance to our transatlantic readers.

From and after the 25th March last the duties on merchandise, by ships of all nations, imported into the dominions embraced within the East India Company's charter were equalised, and from that period the British flag will enjoy no advantage over the flag of any other nation—the enterprising trader is also declared free without any exception or reservation.

FRANCE.

The election in France has terminated, as was expected, in favor of the moderate and peaceful party, of which Lamartine is the head. It received the largest vote given to any one of the 36 members elected from the department of the Seine, to the National Assembly. The vote being for him 259,900; for Lagrenè (de l'Eure) the next highest, 245,083—for L. Abbè de Lamennais, the lowest, 105,871. Among the members elect from the department of the Seine, we notice the names of several very distinguished individuals, besides Lamartine and Degousé, Abaque, &c., who composed the provisional Government. Such as Barrogar, the poet; Coquerel, a celebrated protestant clergyman; who beat the Abbè Lacordaire, one of the most eloquent expositors in the Catholic Church; and the Abbè Lacordaire, one of the most popular of the Jews elected among the constant men elected from the various departments—so far as yet known, may be mentioned:—M. Jaquet, M. de Rougemont, M. Bocheger, Louis Magot, son of the king of Belgium Caubet, &c.

It is thought, Ledru Rollin will be elected President of the new French Republic, although as he is but a mere man he is found fault with.

The Constituent Assembly met yesterday in the Chamber of the Deputies.

Many of a very serious nature had broken out, in various places in connection with the elections. Changes from Rouen, dated the 20th, ult. 9 A. M., says:—

"Here we have serious work in Paris on the 16th of February, in the vicinity of Bercy, the village of Charenton, and the mass of combatants, from the quarters called the Faubourg St. Antoine and the Champ de Mars, that the two parties have established themselves. The Provisional Government to bring in fifty regiments. The Versailles regiments have arrived in the Champ de Mars. The Swiss regiments have refused to march against the people. Strong fright and resistance. The number of killed and wounded is not known, but happily it is not great.

Another letter says on that from Rouen to twenty national guards had been killed.

While the mob were raging at Rouen, disturbances also occurred at Elbeuf, where the mob determined to prevent the troops from re-entering the town to quell the insurrection at Rouen. Barricades were erected, and collisions occurred between the rioters and troops and the liberal guard; but it does not appear to have been ultimately restored by the arrival of strong reinforcements of troops at the line.

The following gazetted have been received respecting disorders at Limoges:—On the 27th ult. about 12 o'clock, when the general result of the votes of the cantons had rendered certain the success of the common candidates, a crowd, enraged, besieged the room in which the electoral operations were carried on, and took possession, in spite of the remonstrances of the employees, of the process verbals of the election, and the ballot box of the army, which were immediately torn to pieces.

Immediately after rude menacing hands pursued the city, deformed the posts of the National Guard, seized the cannons and the magazine. At the news of this revolt I sent to garnish the liberty of action of the National Guard immediately got assembled.

The whole city is in a state of consternation. They want with impatience the intervention of government to re-establish its authority. The insurgents have levied a forced contribution of 750,000 francs on the town.

The latest account received from the disturbed districts are rather more cheering.

We have received details of the proceedings at the opening of the French Chambers on the 4th inst. which were highly interesting, and passed off satisfactorily. The members of the Provisional Government, distinguished by the colored sashes, went in procession to the Chamber, from which all persons having arms were excluded. Lamartine was greeted upon the whole way, and on their arrival in the Chamber—Amongst the members present, beside the Government, were the Bishop of Orleans, Lacordaire (in the dress of a Dominican friar), M. de Montalembert, Odillon Barrot, Dupin, Berryer, Berenger, Laboulaye, Billault, M. Dupont (de l'Eure) was the first of the Government who entered, followed closely by Lamartine and the others. M. Audry de Puyraveau, senior deputy, took the chair as president, by which M. Dupont ascended the tribune, and delivered the following speech:

Citizen Representatives.—The Provisional Government bows before the nation, and renders homage to the sovereign power with which you are invested. Elected by the People at large, to speak against the popular exercise excites a sentiment of happiness and hope which without need is unanimous. (speeches of the ministers) Your mission is short, to establish upon institutions upon the large basis of democracy and universal France the only constitution fitting for her, in reconciling the principles which have presided over the great political revolutions of our country, you will, citizens, like us, occupy yourselves with putting the peaceable and efficacious action of the Government in harmony with the necessity of labor establishes among soldiers, and which must have for its basis the sacred league, peace and fraternity.

In fine, the moment has arrived for the Provisional Government to resign into your hands the unlimited power with which the revolution invested us. You know with their with on the dictatorship has been everything more than a monarchal power, exercised amidst the difficulties and crises in which we were place. Faithful to our origin and to our formed convictions, we hesitated not impose limit the natural republic of February. To day we inaugurate the legislative of the National regime, in declaring that the country free. So world without universal suffrage which has not been its type. For the moment we have consented some limits of time to the power which we hold from it. But the country, not from the moment that the country, not from the moment that the country, not from the moment that

Bangor, April 12, 1848.

NEVER DESPAIR OF LIFE!

KELLEY & CO'S

HIGHLY CONCENTRATED

SARSAPARILLA

Cures the Worst Diseases that ever preyed on the Human System, and saves Thousands of Lives

Annually!!!

10,000 CASES

Of SCROFULA cured by it this year, and 5,000 Cases DYSPEPSIA and HUMORS, of which *proof* can be furnished. This is the only medicine known to cure these diseases.

THIS Sarsaparilla will bear TWO QUARTS OF WATER to a bottle, and then be far superior to any in use It is put into the Bottle in FULL STRENGTH and power, without reducing it, and this is done for the special benefit of those who use it, as it is subjected to all other Sarsaparillas that they are Weak, Chimey, Adulterated, Sickish, and are wholly incapable of reaching the seat and cause of the disease. But this Sarsaparilla comes warranted to be!!

Six Times Stronger

than any other, and Six Times Better, Safer, Surer, and Cheaper than all others *THIS* Sarsaparilla has bestowed on it some of the best MEDICAL Talents and Skill in the world; and CURES all the Sickness, KILLS all the Pain, and REMOVES all the suffering that it is in the power of Human means to do! It Cures

Scrofula, Dyspepsia, Jaundice, Liver Complaint, Humors, Canker, Costiveness, Rheumatism, Cancer, Debility of the System, Salt Rheum, and every Disease which arises from Impure Blood!

CONSUMPTION CURED WITH KELLEY & CO'S SARSAPARILLA!

A PHYSICIAN, who is truly the most distinguished of any in a large City for professional skill CERTIFIES, astonishing as it may seem, that he actually CURED a case of **Consumption** with Kelley & Co's Sarsaparilla, and says "that there is no medicine in which he has so much confidence for **Diseases of the Lungs.**" Some will marvel at this REMARKABLE Cure, but hundreds are knowing to the fact. This INESTIMABLE Sarsaparilla is also doing wonders in foreign cities And says

SIR BENJAMIN BRODIE,

Surgeon to the Royal Family of England "that there is no other medicine which is CAPABLE of doing so MUCH GOOD, and yet INCAPABLE of doing injury." What distinguished compliments are these! Never was there a medicine honored with STRONGER RECOMMENDATIONS. It CURES when every thing else fails, the

Severest Scrofula and Humors,

where the flesh falls off the bones—the bones are diseased, and the DART OF DEATH set ready to strike the sufferer. And the reason is for this is, that it makes the BLOOD perfectly Pure, Rich, Healthy, Quick, Free, Nutritious It CURES all those ALARMING cases of DYSPEPSIA and JAUNDICE, where the Liver is Sunken and Painful, Strength wasting, Appetite gone, Pulse weak or Feverish, Skin yellow, Nerves deranged. It restores Health, Strength, and Vigor to every disordered function of the System—causing Life to move on just as Nature requires And for its WONDERFUL Power over Disease in every form and part which no other Medicine possesses, the public justly style it the

Master Remedy of the Age!

The great secret of all its triumphant success over all other Sarsaparillas, is, that it does not cripple with the patient or prolong his suffering. But at first attacks the disease, and stops it, then removes it, then brings up the flesh and strength in the most perfectly pure Blood, so that the cure is always thorough and permanent Others only scratch it back on the disease, but this EXTIRPATES it entirely from the system—this saves the patient while others endanger it The whole Body is made healthy by the use of this GRAND MEDICINE, the System so vigorous—Mind so cheerful—Nerves so quiet—Skin so fair—Spirits so buoyant, that **Medical Colleges, Professors,** and Physicians always prefer it, for the sake of its Superiority. Try it, all you who are seeking the PRICELESS BLESSINGS OF HEALTH!

Ladies, Married and Unmarried!

It is for you especially, that this Sarsaparilla is made, as the HEALING ART has been tasked to the utmost to have it exactly suited to FEMALE COMPLAINTS. Those Complaints have never been cured for as they ought; hence it is that all the medicines which are used with the hope of Cure, so universally and entirely fail But this Sarsaparilla has the SPECIAL ability to cure every Disease Affection or Pain which comes under this head. It regulates the secretions—corrects the irregularities of the System—restores strength to every part—beautifies the complexion—imparts a flow of spirits—causes palpitation of the Heart—removes Blotches, Pimples, Freckles.

Manufactured by

JOS. L. KELLEY & CO.

Chemists and Druggists, 108 *Middle Street, Portland, Maine.*

N. B.—Price 75 Cents a Bottle—for $5 a Bottle, purchased at one time, $4.00. For this trifling sum the WORST Disease can be cured!

june 7

DISEASES OF THE Throat and Lungs.

COUGHS and Colds, the first Symptoms of Consumption, Bronchitis, Asthma, Pleurisy, and many other dangerous diseases, are too often neglected until the founder on the Specific Component in land deep in the Tomb one. A Physician is consulted, who administers a few Palliatives, but declares the disease incurable, and the Patient in resignation of the hopeless case. But why should they? Simply because they do not resort to the proper remedy, but trust to the last dose of a Practitioner although the infallible evidence of experiencing the most authentic testimony. Of this many is the only true one, the proprietary of

DR VONDERHEITH'S INDIAN COUGH BALM *and Lung Balsam,*

hath been thoroughly established. Let those who doubt, read the following testimonials which are merely samples of hundreds of the same nature.

CONSUMPTION,

AND AFFECTION OF THE LIVER, CURED

Of Twenty Years Standing!

CONCORD, N. H., June 21st 1847.

This is to Certify that I, Nelson Ladrasee, of Jersey City, have been subject to a severe hacking cough and a pain in the side and chest attended with night sweats and general weakness of the system for a period of twenty years, and pronounced INCURABLE CONSUMPTION, whether the advice of eight physicians or the many quack remedies I have taken have been of any permanent benefit, and I was yielding hopelessly to the power of my disease, when I was induced to try Dr. VONDERHEITH'S INDIAN COUGH BALSAM AND LUNG BALSAM, by the aid of which, all my symptoms have been removed, and I have been restored to the blessings of health, and the prospect of a protracted existence, a degree of which, seemed to hope at first a hazardous experiment, with a high degree of confidence in its virtues, I accordingly tested it, and found it to be just what it was represented to be. Use it in Pulmonic cases, as directed, and it will not disappoint you. I particularly recommend it to the afflicted, as the most valuable remedy I have ever used. I have been a resident of this city, as a gentleman of character and standing, and who is personally known to many of our citizens. Any information concerning my case will be given by calling on me.

NELSON LADRASEE.

Jersey City.

Sworn to before me, this 9th day of July, 1847

of the City of New York.

INFLAMMATION OF THE LUNGS

New York, June 19 1847.

Dr. Vonderheith:—I have used your Indian Cough Balm in a severe case of Inflammation of the Lungs, and can recommend it as the best medicine I ever used. I had been confined to my house for three weeks, and during the last two weeks I could not possibly raise one handful of phlegm. The cough was very severe, and my breast and throat were very much inflamed, and I had given up all hopes of recovery, when I was induced to try your Balm, which relieved me in a few days, and I am now able to attend to my business. I have recommended it to many of my friends, and they have found it to be the best medicine they ever used for the Lungs.

Yours truly,

JAMES B HENDERSON, No. 76 Walker street.

ASSIGNEE'S NOTICE.

NOTICE is hereby given that JOSEPH D. HUSTICK, of Corinth, by his Petition dated the 9th day of May instant, assigned his property to me in trust; for the benefit of all such creditors as shall become parties thereto within three months from the first publication of this notice, by signing the deed of assignment and giving notice of such signing to the undersigned.

Dated this 15th day of June, A. D. 1848.

SAMUEL FLAGG

Corinth, June 15, 1848. 3tw

A CARD.

A Gentleman, who after suffering many years with a severe pulmonary affection, which finally terminated in Consumption, was cured in a few weeks by a very simple remedy, after all other means had been tried in vain, and the most eminent Physicians had given him up to die, considers it a duty he owes to his fellow sufferers to make known the means of his cure. To all who desire it, he will send a copy of the prescription used, (free of charge,) with the directions for preparing the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, Coughs, Colds, and all Diseases of the Throat and Lungs. The only object of the advertiser in sending the prescription is to benefit the afflicted, and spread information which he thinks will prove invaluable, and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing. Those wishing the prescription, will please address Rev. EDWARD A. WILSON, Williamsburgh, Kings County, New York.

DR. J. BULL'S PREPARATIONS!

TRY THEM, AND JUDGE FOR YOURSELF!

TO THE PUBLIC.

Wonderful! That's Right—A proper Principle Adopted.

YOU cannot object to me giving my articles to all if they are not found to be as represented, return them, and your money will be cheerfully refunded. Remember, there is no *quackery*—no humbug about it. A trial will convince you, and if any one is humbugged, it will be myself. With the utmost confidence I recommend to the particular attention of the public the following articles: First—

MY EAU AUSTRAL HAIR RESTORATIVE.

This universally approved and admired article is free from ardent spirits, pungent essential oil, and other deleterious substances, combines the half a dozen liquids, produces beautifully bright, and imparts to it the delightful fragrance of the flowers. It arrests the evil to a certain extent, and in effect in the cure of baldness in spite of the fault is unequalled by any other preparation of the kind. Second—

MY EAU DIVINE DE VENUS AND NYMPH SOAP.

Compared of an Eastern Botanical Discovery of Surprising Efficacy, for rendering the SKIN SOFT AND FAIR, as well as imparting a Delicate Roseate hue to the Complexion.

Not only called, but appears without this article sold. Its effect on the skin is almost beautiful to the eye, and how known, cleans the complexion and leaves a delicate rose tinge that cannot be surpassed. Third—

MY SLAYING CREAM.

Gentlemen, where to shave with Bull Bunel's Premium Cream!

The Cream is acknowledged by all who have used to be superior to any in use. It produces a fine and rich lather. It does not smart or irritate the skin, on the contrary, it is very pleasant and highly emollient. No person will regret a trial, and I believe it to be the most valuable and extraordinary discovery ever known. Prepared and for sale at the Depot of Medicines, No. 120 Chatham street, opposite the Park. Be careful to observe the name and number as there are many imitations.

Fourth—

MY DEPILATORY POWDER.

This Powder has never failed in producing the desired effect. Its composition is infallible, and will entirely remove superfluous hair. Many ladies have used it, who were afflicted with hair on the arms of the face, neck, &c., giving it an appearance of manliness, and who found it to be effectual.

Fifth—

MY CELEBRATED VEGETABLE LIQUID HAIR-DYE.

A Chemical Result, to enable persons to dye their hair in a instantaneous, without the least inconvenience.

"By which I have been changed in a magic of using one bottle only of Dr. J. Bull's celebrated "Vegetable Liquid Hair Dye."

For changing red or grey hair, whiskers, &c., to brown, black or chestnut color. It will not cause the least inconvenience to the head, nor the slightest injury to the hair, but on the contrary will cause it to grow in a beautiful manner, the various gradations of color produced are very convenient, and the time is the shortest possible. Sold only at the Depot of Medicines, No. 120 Chatham street, opposite the Park.

Sixth—

MY CELEBRATED PERSIAN OR CHINESE POWDER.

Patronized by the Fashionable World of the United States and under the immediate patronage of the ladies.

This powder is unequalled for the nursery, preserving, beautifying, and preserving the fine skin, rendering the skin delicately white immediately, preventing cutaneous eruptions, chapping and obliteration of copious perspiration. Travellers and residents in warm climates will highly appreciate this grateful appendage to the toilet.

NINE HUNDRED DOLLARS REWARD

Will be paid by the person who will prove that Bull Bunel's *Vegetable Liquid Hair Dye* is not the best—the only best yet known in this country or in Europe. This valuable discovery will enable a person to restore in a few minutes, without the least inconvenience, the hair to its original color, and will not injure the hair in the least, but on the contrary will cause it to grow in a beautiful manner. Any person who will prove that it will injure the hair in the least will receive the above reward. Any person who will prove that it will not restore the hair to its original color, will receive a refund of the money paid for it.

From a celebrated Chemist of the City of Philadelphia.

"I am acquainted with a high degree of confidence in Bull Bunel's *Vegetable Liquid Hair Dye* as an article of merit, and can recommend it as a safe and effectual preparation for restoring the hair to its original color, without the least inconvenience. This preparation is warranted not to wash out, nor to injure the scalp, but on the contrary will invigorate and brighten it.

From Constable Gallup, Esq., Attorney at law, and Notary Public, Philadelphia.

"From a near acquaintance with Jules Bunel—an experience of an fashionable Perfumer and Chemist—I am prepared to appreciate the unexpected triumph in Dye of his different fashionable preparations. Quite of them to my own family, and some of my friends upon his, I have shown that realized them favorable preparations;—they are, what they profess to be, being carefully prepared and compounded. I agree with many in my recommendations, have convinced of the great merit of the *Eau Austral Hair-Restorative, Sherry Cream, Nymph Soap* and in fact all the popular perfumes of Mr Bull.

It is with the greatest pleasure that I can recommend the above articles to all of my numerous friends and the public. They are, in their way, invaluable.

CONSTANT GUILLOUET

From Daniel J. Desmond, Esq., Attorney at Law, Chief Burgess of Pottsville, Penn., Vice Consul to Algeria, Sardinia, Portugal and Hanover.

"Mr Jules Bunel,

Sir—The length I have had the pleasure of an acquaintance with you, put a stop to my publishing and the public generally, assuring me that how my celebrated hair many in favor of general Perfumer had more the preparations. On trial of them to my own family, and many of them personally, I do positive you gentlemen that they are what they profess to be, and fully deserved and recommended. I am now one of the great worth or merit of the Eau Lustral Hair Restorative, the King Cream Nymph Soap and Rose Tooth Paste,—I am fully satisfied of their intrinsic worth and do recently recommend them to all for the use and purpose they are intended. Both agents about the country are fast importing to the benefit from the use of the Eau Lustral Hair Restorative. I shall recommend the Bull preparations to my friends. The Sherry Cream is unequalled for cleansing the skin, and the Nymph Soap and Rose Tooth Paste complete it—it does not smart or irritate the skin with Nymph Soap upon the beautiful Sherry upon the skin, and cleanses it from all impurities. The Rose Tooth Paste is pronounced to be both a purifying and cleansing preparation for the teeth, and will preserve them from decay. They retain their whiteness and durable.

"I have seen many of my friends who have used your Vegetable Liquid Hair Dye in the course of a few minutes, and the change was truly wonderful. I am confident your preparations will become popular as soon as they are known.

Yours, &c.,

DANIEL J. DESMOND.

Philadelphia, March 1st, 1847.

And by Druggists and Perfumers generally throughout the United States.

An Extract from the Report of the Judges of the Franklin Institute of Pennsylvania

"After a minute and careful examination of the preparations submitted to our notice by Jules Bunel, Chemist and Perfumer, of the city of Philadelphia, we do not hesitate to pronounce them truly excellent articles, well calculated for the toilet."

READ THE CERTIFICATE!

The Franklin Institute, of the State of Pennsylvania for the Promotion of the Mechanic Arts, has awarded a Gold Medal, of Philadelphia. Jules Bunel, Chemist and Perfumer, for many of valuable discoveries, chiefly in the preparation of his hair dyes, Cleansing Cream, Nymph Soap, Rose Tooth Paste, &c., together with numerous certificates of the highest character, which we will refer to with pleasure, and state that the Medal was awarded to him upon the recommendation of the Committee on Chemistry, after a careful examination of the articles.

Dr. Townsend's SARSAPARILLA

THE BEST EXTRACT OF MEDICINE IN THE WORLD.

This patriot a purely vegetable compound is a timely cheapest, pleasantest, and surest and safest remedy to use sickening of debilitating symptoms.

This truly wonderful compound of the sarsaparilla overcomes other diseases, while it eradicates diseases it cures more the body. It is one of the safest best Fall and Winter medicines ever known. It not only purifies the whole system, but it entirely eradicates from the system all humors, however long they may have been there, and however deep seated they may be. It has performed in the past two years, more than 5,000 cures of the most obstinate kind, at least 20,000 sick and worn out broken down constitutions.

Not less than 3000 cases of Chronic Rheumatism,
2,000 cases of Dyspepsia,
4000 cases of General Debility and Want of Energy,
700 cases of the Broken up Female Constitution,
300 cases of Scrofula,
1000 cases of the Liver Complaint,
500 cases of Diseased and Broken down Kidneys and Dropsy,
800 cases of Consumption,

Have been cured by the use of this invaluable compound in the city of New York alone, which we will refer to with pleasure, and state that the above diseases, in the opinion of the most eminent physicians of this city, are incurable by any other remedy. Many of the above cases were given up by their physicians as incurable, and had resorted to their homes to die, when they were induced to try this medicine, and were restored to perfect health by a few bottles of it. Many of the above cases were of the most aggravated character, and had been of many years standing. Many of the above cases were publicly known in this city, and have been the subject of newspaper notices.

CURE OF CHILDREN THE PARTICULARLY.

No parent can be afraid of disease and suffering their children while this remedy is used. It is pleasant to take, and is warranted to cure the most obstinate case of Scrofula in children.

RHEUMATISM.

The Sarsaparilla is made with a due regard to the most scientific principles in chemistry, and is a sure cure for Rheumatism, however severe or obstinate the case may be. The most distressing cases of Rheumatism in the city of New York which we will refer to with pleasure, and state that the above diseases, in the opinion of the most eminent physicians of this city, are incurable by any other remedy. Many of the above cases were given up by their physicians as incurable, and had resorted to their homes to die, when they were induced to try this medicine, and were restored to perfect health by a few bottles of it. Many of the above cases were of the most aggravated character, and had been of many years standing. Many of the above cases were publicly known in this city, and have been the subject of newspaper notices.

SCROFULA CURED.

The Sarsaparilla is made with a due regard to the most scientific principles in chemistry, and is a sure cure for Scrofula, however severe or obstinate the case may be. The most distressing cases of Scrofula in this city, which we will refer to with pleasure, and state that the above diseases, in the opinion of the most eminent physicians of this city, are incurable by any other remedy. Many of the above cases were given up by their physicians as incurable, and had resorted to their homes to die, when they were induced to try this medicine, and were restored to perfect health by a few bottles of it. Many of the above cases were of the most aggravated character, and had been of many years standing. Many of the above cases were publicly known in this city, and have been the subject of newspaper notices.

TO THE CONSUMPTIVE!

Every person in the Country or City should buy a bottle of this Sarsaparilla as it is the best remedy to counteract the consumptive tendencies of the climate, to be found as a preventive, or remedy, in all cases of boils, carbuncles, settling of blood, pain in the side or chest, irritation and soreness of the lungs, bronchitis, difficulty of breathing, bleeding, night sweats, emaciation and general debility, asthma, influenza, hooping cough, or croup.

In case of internal disease of the kidneys, it is unsurpassed by any medicine in the USE. Sold by druggists generally throughout the United States and British American Provinces.

Price $1 per bottle, or $5 for six bottles.

Sold by A. B. Gough & Co., 149 Fulton st., New York; W. Fowle, Boston, and by Druggists generally throughout the United States.

☞ Sold also in Bangor, by Bragg & Co.

Messrs A B Gough & Co.—Gents: I bought, about two weeks ago, a package of Hedge Powders to administer to a private family, which had been troubled with the worms for more than two years. His son was very low indeed, and no remedy could be found to give him relief. He had used almost all the worm powders and cordials that had been recommended to me, but to no effect, as he still continued to grow worse. Hearing of your remedy, I procured a package of your Hedge Powders, and administered them according to the directions, and in less than twenty-four hours from the time he took the first dose, he passed from his bowels a worm of enormous size, and in the course of a few days passed off a number more, which entirely relieved him from his complaint, and restored him to perfect health. I have since used your Hedge Powders in my family, and find them to be a safe and effectual remedy for worms. I have also given them to my friends, and they have all found them to be what they are recommended. I am now using your Hedge Powders in my family, and find them to be a safe and effectual remedy for worms. I have also given them to my friends, and they have all found them to be what they are recommended.

Respectfully, &c. FLOYD, 104 Lawrence st.

New York, Nov. 1, 1847.

Mr. Gough, A. B. Gough & Co.

Gentlemen—You will recollect that I bought a package of your Hedge Powders some time ago to administer to a valuable horse we keep in my business, and that I was quite desirous of the wisdom of attempting to use it on a bad case of his we had on hand, in fact he later there were no medicines better for his complaint than these. I have been in the habit of using certain remedies for worms in horses, but I must say that your Hedge Powders are decidedly the best I ever used. I have used them in a number of cases, and they have done all you have said they would do. I believe them to be a perfect specific for worms, and a safe and effectual remedy. I have also used them in my family, and find them to be a safe and effectual remedy for worms. I have also given them to my friends, and they have all found them to be what they are recommended. I am now using your Hedge Powders in my family, and find them to be a safe and effectual remedy for worms. I have also given them to my friends, and they have all found them to be what they are recommended.

Patent Mill Wheels.

Tinbey's Patent

Two Vent Cast Iron Water Wheels.

FOR

SAW MILLS,

Invented by T. H. Tinbey, of Cato, N. Y.

THE undersigned would invite the attention of the Public to the above named WHEELS, which have been thoroughly tested in *Oswego* Illinois with all other wheels

SAW MILL WHEELS

in use at the present time and they can confidently recommend them, with the same head and quantity of water applied, as possessing and combining more *Strength and Speed* and giving a more *uniform* and *Steady Motion* in and out of the cut (and all that is not liable to break gears,) and will also give an *Extra Lumber* cut below those and all other Wheels in use.

Another advantage which this Wheel has over others as that it is so constructed with but one or the discharge of water which makes the gates larger and allows the "drift stuff" to escape without filling up the Wheel

Persons wishing to adopt the BEST WHEEL will do well to call and examine before purchasing elsewhere

We would also call the attention of Mill Owners and Operators to

Valentine's Patent Reversing Centrifugal Water Wheel,

FOR

UPRIGHT SHAFTS,

WHICH are adapted for driving all kinds of Machinery in Manufacturing establishments or Mills, and are made on different sizes so as to give any amount of power required and from the reputation these Wheels have acquired by the success of operation of several hundred of them now sold and in use, we feel confident in recommending them as combining more advantages than any other Wheel, for power, now in use.

As evidence of the merits of this Wheel we would refer to the following extracts from the report of experiments made with the same by WILLIAM A. BEARD, Esq., *Civil Engineer*, Lowell, Mass., who is well known as one of the most scientific and experienced practical Engineers in this country.

"The wheel is formed with curved floats the number depending upon the size and velocity of the Wheel, and extending so far around the Wheel that when the water arrives at the point of pressure it so far expends its force as to allow nearly into from the Wheel. The Wheel is inclosed in a cylindrical wooden case or flume, in which the water stands at its full head, the column being sustained by the station by its state inside the Wheel so that it has no lower part pressure upon the Wheel, which stands perfectly free in the column of water, and by this arrangement all the friction of journal and bearing (the Wheel is avoided and so called the power saved, which in the ordinary mode of operation is usually lost.

This Wheel is adapted to low as well as high heads of water, as will run as well at back water as at the highest tide head rises it is freest as far as the back water. But at Wheel with the least right of gauge for which head will not answer for a low one, and vice versa for as the head increases the width of the jets should be proportionally decreased, so that the water may not issue too fast, and not give its best effect to the Wheel.

The point of power, the true show consideration that this Wheel is superior to the best constructed Breast Wheels, and it has the advantage of the skirt with good effect in situations where the Breast Wheel would be worthless, is less liable to freeze, is easily accessible when they are needed, costs much less in the outlay, is much more durable, and does very much less room in a mill or shop. Simplicity of structure, durability of parts, convenience of application and excellence of power are the grand points of recommendation for this Wheel.

ITHAMAR A. BEARD, *Civil Engineer*

All sizes of the above Wheels will be the LATEST and most IMPROVED patterns of

Mill Gearing, Machinery, &c.; Shingle, Clapboard, Sipping, Lath and Box Machines;

Steam Engines and Boilers,

with all kinds of

PAPER MACHINERY.

Connected with our establishment is a Work Shop, where is kept constantly the best of workmen, manufacturing every description of Tin and Sheet Iron Work.

☞ Any article in our line of business will be furnished as cheap as at any other establishment in this city.
